Label Capabilities

We *offer* different **label capabilities** to help you get your job done.

Flexographic Print

- Up to 20" Widths
- Up to 10 Colors
- High-Definition Plates
- Vast Portfolio of Dies
- Variable Imaging Available

Custom Thermal Solutions

- TT Materials
- DT Materials
- Wax Ribbons
- Wax Resin Ribbons
- Resin Ribbons

Stock Products

- Thermal Transfer Labels
- Thermal Transfer Ribbons
- Direct Thermal Labels
- RFID Labels
- Laser Sheet Labels
- Integrated Labels
- DOT, Pictorial & Warning
- OEM Supplies
- Inkjet Printer Roll Media

Digital

- HP Indigo Digital Print with Semi Rotary Die Cutting
- UV Color Inkjet with Semi Rotary or Laser Die Cutting
- Aqueous Color Inkjet with Semi Rotary or Laser Die Cutting

Warehouse

- Rack Label Production
- Label Installation
- CleanBeam™/CleanBin™
- Warehouse Signs
- Label Armor

Specialty Products

- TT Vinyl Label Tape
- Parking Machine Media
- Flexible Packaging
- RFID

RFID Labels

What Are RFID Labels?

A typical RFID label contains a UHF RFID transponder (or inlay) embedded between the facestock and release liner. This inlay uses a tiny microchip with an antenna to store information and transmit it to specially designed RFID readers.

Much like barcodes, RFID is used to track and capture information about products, assets and inventory and is used in applications such as tracking goods through the supply chain and managing inventory in retail stores.

Fast & Accurate Data Management

Radio Frequency Identification (RFID) labels are an excellent solution for companies looking to increase speed and accuracy of data collection. Customers in a wide range of industries including supply chain and distribution, retail, consumer goods and healthcare look to RAIN RFID technology. And as experts in both RFID and label production, CIS can help you reach these customers.

Meet Your Customer's RFID Needs

With access to a huge array of inlays and face sheet materials, we can support almost any custom RFID label construction. If you need a particular chip and/or inlay, or would like to know if our labels are compatible with your existing specifications, please contact us, and we can advise.

Experts In Labels & RFID

We are experts in the production of thermal and pressure sensitive labels. And, we work closely with experts in RFID printers and encoders. This combined expertise allows us to provide a wide variety of stock or custom printed RFID labels guaranteed for optimal performance.

Benefits of RFID

RFID labels can be attached to individual products, boxes or pallets for use in data collection and tracking. They provide a number of benefits to traditional barcodes including:

- Doesn't require direct line of site.
- Faster read rates, from farther distances.
- Item-level serialization.
- Able to simultaneously read multiple RFID labels.
- Information can be updated on demand.

Thermal Transfer Labels

TT & DT Guidelines

Label Info

- All labels are coated with a general-purpose permanent adhesive. They have 1/8" spacing and 1/8" radius corners unless otherwise noted.

Shipping

- Product is FOB Country Innovation & Supply for all items. Items with "IL" are available in Chicago, "GA" in Atlanta, "NV" in Reno, "TX" in Dallas and "CA" for Riverside, California. Orders received by 2 p.m. (ET for GA shipments, CT for IL and TX shipments, PT for NV & CA shipments) will ship the same day. Orders received after 2 p.m. ET, CT, PT will ship the next business day from their respective plants.
- A minimum of two cases must be purchased to avoid a small order fee of \$20.00. Individual cases must be ordered in full case increments to avoid a case breaking fee of \$15.00.

- Customized labeling of stock products will be charged at the rate of \$.35/box with a minimum charge of \$5.00.

- Full cases of blank stock items can be combined to reach 2 or 12 case price breaks. Cases must ship to the same address.

Returns

- Returns must have a Return Materials Authorization (RMA) # issued prior to shipping. Restock fee=15% or \$30, whichever is greater.

Copacking

- We will co-pack 1 ribbon per box of labels. The ribbon is coated side out or in. Please add a ribbon line to your purchase order and ask for co-pack. Use the ribbon prices to figure out your price for that line item.

Warehouse Labels & Services

Program Overview

With all the challenges you may encounter implementing your WMS system, why go it alone? Now you can have the backing of one of the top experts in the industry. CIS combines a thorough understanding of warehouse operations, barcode scanning and label production to help you install an individualized barcode warehouse label solution. We help you work through the details of your warehouse labeling needs, so you have more time and energy to focus on what you do best.

All of CIS's signs & labels are specifically designed for each unique application. We don't try to fit warehouses into one predetermined signage solution. We design customized warehouse signs for your needs. Don't let something as simple as poor signage stand in the way of achieving excellence for your warehouse.

Complete Install & Project Management

When you need the expertise to efficiently complete a sign or label installation, CIS's Site Management services provide you with a great option. We supply an on-site manager for the label installation to serve as your point person—managing the process from beginning to end. Also, you will receive a complete set of services from our seasoned team of professional installers—including all the materials, labor and equipment necessary for your project. We make installing labels and signs in your warehouse quick, easy, and accurate.

Initial Consultation

To get the most from your warehouse labeling project, it's important to take a systematic look at everything that goes into the project. No two warehouses are the same. An efficient warehouse labeling plan incorporates the facility layout, processes and workflows. Additional variables include available staff, Go-Live date, budget, and more. That's why we begin with an analysis of your facility needs and requirements. As warehouse labeling experts, CIS can work with you to provide best-practices and solutions that work best for your company. This initial planning helps us produce the labels for an efficient installation.

We offer a complete warehouse labeling solution.

RFID Label Guidelines

Label Info

- All labels are coated with a general-purpose permanent adhesive. They have 1/8" spacing and 1/8" radius corners unless otherwise noted.
- RFID labels are compatible with the entire TSC Printronix Auto ID printer series.
- RFID labels are also compatible with most industry standard printers including Zebra and Datamax.
- Markets for RFID labels include: Logistics, warehouse applications, food and pharmaceutical supply chain, omni-channel retail and more!
- RFID labels are in-line verified, with rejected labels clearly marked.
- RFID orders are 0% unders – rejects are not included in final label/tag count

Printing/Encoding

- Service bureau print/encode service is available. The per label cost for printing/encoding is in addition to the cost of the label.

Returns

- All sales of RFID labels are final. Returns and refunds of RFID labels are provided solely in cases where the received product exhibits quality issues.
- Immediately inspect your order once received. If any items are defective, damaged, or you receive the wrong item, contact us and we will evaluate the issue.
- Since all sales are final, we want to ensure you receive the correct product for your needs. If you are unsure of which RFID label you need, please reach out to our team at keaton@innovationandsupply.com prior to placing an order.

GHS Labels

What is GHS?

GHS, or the Globally Harmonized System of Classification and Labeling of Chemicals, is an international system to standardize the way hazardous materials are classified and labeled. This system includes criteria for classifying and rating the hazards of chemicals, as well as standard language and symbols to identify these hazards.

Why Care About GHS?

If you need GHS labels, it's important that they meet specification and certification requirements. CIS knows all the details that go into GHS compliant labels, and will work with you to ensure your labels meet these requirements.

What Does BS5609 Mean?

If you are shipping chemical containers over a body of water, you will need to meet BS5609 requirements. Labels that meet these standards are tested for performance related to harsh marine conditions. Specifically, CIS's UV printed labels are certified for BS5609 Section 2 and 3 compliance. This means the media, text, coloring and images have passed the standardized testing for resistance to abrasion, UV exposure and sea water immersion as well as other qualifications.

Our *Pictogram & Chemical Labels* are designed to *Comply* with the *Globally Harmonized System*.

PW4330243	4.33" x 243'	110mm x 74m	36	\$2.66

Ribbon Specs: 1/2" fiber core, coated side out

Compatible Printers: GC420t, GK420t, GX420T, GX430T, T402, TLP 2742, 3742, TLP-2844, 2242, 2642, ZD220, ZD500R UHF RFID, ZD620

Premium Wax Ribbon Specs

Performance Characteristics

- High density formulation necessary to provide consistent scan rates
- Widest print latitude to the receiving materials
- Excellent edge definition and print quality at high dpi and print speeds - up to 12 IPS
- Low printhead energy requirements for image transfer
- Superior abrasion resistance compared to conventional wax products
- Anti-static formulation and backcoating to prolong printhead life

Formulation Technical Information

Base Film Thickness: 4.5 +/- .3 micron

Ribbon Thickness: 7.7 +/- .3 micron

Ink Color: Black

Printing Density: >1.90 Macbeth Densitometer

Recommended Applications

- High speed print and apply labeling systems
- Shipping, carton and address labeling
- Small character and graphics printing with 300/400 dpi
- All product ID label and tag printing, retail, industrial and apparel
- All general purpose labeling

Recommended Media Substrates

- Coated & uncoated papers
- Tag stocks
- Synthetic papers
- Other pressure sensitive materials

Ribbon Specs: 1" fiber core, coated side in

Compatible Printers: PRODIGY, DMX, M Class, I Class, H Class, W Class

Datamax: I & W Class printers can use ribbons up to 1476 ft. in length, but must be coated side in. H Class printers can use 1476 ft. ribbons too. They can be coated side in or side out. Some H Class printers can use 1968 ft. ribbons.

Economy Wax Ribbon Specs

Performance Characteristics

- Wide print latitude to broad range of receiving materials
- Strong scratch and smear abrasion resistance on papers, synthetics, and polyesters
- Excellent edge definition and print quality at high dpi and print speeds - up to 8 IPS
- Low printhead energy requirements for image transfer
- Anti-static formulation and backcoating to prolong printhead life
- UL agency recognized

Formulation Technical Information

Base Film Thickness: 4.6 +/- .3 micron

Ribbon Thickness: 10.0 +/- .3 micron

Ink Color: Black

Printing Density: >1.90 Macbeth Densitometer

Recommended Applications

- High speed print and apply labeling systems
- Shipping, carton and address labeling
- Small character and graphics printing with 300/400 dpi
- All product ID label and tag printing, retail, industrial and apparel
- All general purpose labeling

Recommended Media Substrates

- Coated & uncoated papers
- Coated tag stocks
- Gloss papers
- Synthetic papers
- Films (PVC, BOPP, Pet)
- Retro-reflective
- Other pressure sensitive materials

Label Armor

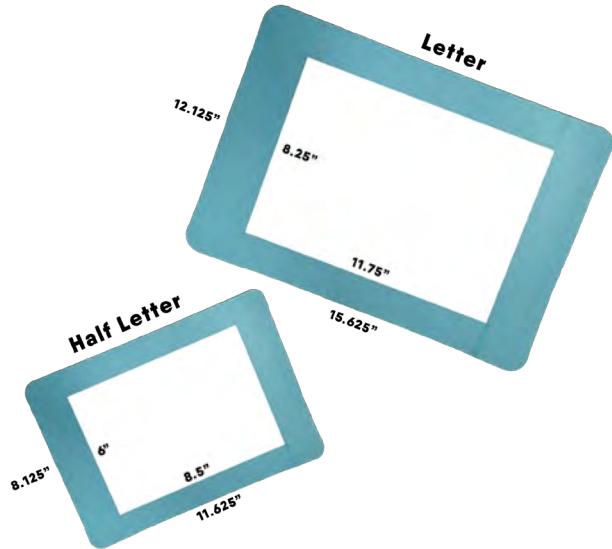

Floor Label Protectors

Floor labels have never held up well to the rigors of pedestrian and vehicle traffic. CIS offers a new, impact-resistant solution: Label Armor. Label Armor is a self-adhesive label protector with optional colored frames. The clear window allows you to cover and protect labels on floors, doors, and walls. This unique product features a textured, anti-slip surface that provides extra safety and durability.

A Multi-Surface Solution

Warehouses, retail spaces, or storage facilities can use Label Armor on:

- Interior & Exterior Doors
- Bulk Locations
- Staging Lanes/Areas
- Totes
- Walls
- Walkways
- Stairways
- Shipping Docks

Stock Sizes & Custom

Label Armor is available in half letter and full letter sizes.

Half Letter Size:

Overall - 8.125" L x 11.625" W
Opening - 6" L x 8.5" W

Letter Size:

Overall - 12.125" L x 15.625" W
Opening - 8.25" L x 11.75" W

Custom sizes and colors are available. For more information please contact us.

Premium Wax Resin Ribbon Specs

Recommended Applications

- Applications requiring moderate to high scratch and smear resistance
- High speed print and apply labeling systems
- Shipping, carton and address labeling
- All product ID label and tag printing, retail, industrial and apparel
- Heat shrink wrap applications

Performance Characteristics

- Wide print latitude to broad range of receiving materials
- Strong scratch and smear abrasion resistance on papers, synthetics, and polyesters
- Excellent edge definition and print quality at high dpi and print speeds - up to 8 IPS
- Anti-static formulation and backcoating to prolong printhead life
- UL agency recognized

Recommended Media Substrates

- Coated & uncoated papers
- Coated tag stocks
- Gloss papers
- Synthetic papers
- Films (PVC, BOPP, PET)
- Retro reflective
- Other pressure sensitive materials

Formulation Technical Information

Base Film Thickness: 4.6 +/- .3 micron

Ribbon Thickness: 10.0 +/- .3 micron

Ink Color: Black

Printing Density: >1.90 Macbeth Densitometer

Transmission Density: >1.30 Macbeth Densitometer

Ink Melting Point: 80 °c

Sensitivity: 14mj/mm²

Recommended Maximum Print Speed:
8 Inches (203mm) per second

Transmission Density: >1.00 Macbeth Densitometer

Ink Melting Point: 83 °c

Sensitivity: 16mj/mm²

Recommended Maximum Print Speed:
8 Inches (203mm) per second

Ribbon Guidelines

Ribbon Info

- Stocked ribbon orders received by 2 p.m. local time, ship the same day. Stocked ribbon orders received after 2 p.m. local time, will ship the next day from their respective plants. Drop ship orders ship within 3 business days.

Shipping

- The order minimum for all ribbons is \$100, shipping to one address.
- Minimums, Combos, Broken Cases: The order minimum for all ribbons is \$100 (shipping to one address) or a \$20 small order fee will apply. Stock labels (full cases only) and stocked ribbons can be combined to reach the \$100 minimum.

The order minimum for non-stocked ribbons is \$100, or one full case, regardless of the rest of the order. Stocked ribbons can be ordered in increments of 6 rolls provided the total order is \$100.

Returns

- Returns must have a Return Materials Authorization (RMA) # issued prior to shipping. Restock fee=15% or \$30, whichever is greater.

Thermal Ribbons

All popular sizes and colors of thermal transfer ribbons are *ready for quick delivery.*

Premium Wax

- Resin-Enhanced Wax
- Best all-around performance
- Excellent imaging and durability
- Great for rotated barcodes
- Deep, rich images at 12 IPS
- Requires nominal printer energy settings
- Anti-Static back coating for longer printhead life

Premium Wax Resin

- Superior image durability on a wide variety of materials
- High abrasion and heat resistance
- Excellent high-definition, dark characters & images at 10 IPS
- Utilizes less printhead energy
- Anti-Static back coating for longer printhead life

Premium Resin

- Highest quality printing on a broad range of films & synthetics
- Superior resistance to abrasion, scratches & smearing
- Excellent edge definition and print quality at 8 IPS
- Perfect for long-life applications
- Anti-Static back coating for longer printhead life

Specs: Packed in trays of 100. Bulk is only available in white.

Stock Guidelines

White and Fluorescent

- 100 packs are shrink-wrapped in white chipboard trays of 100, with 10 trays per case. 100 packs can be shipped in less than full cases and can be mixed and matched. A minimum order of 7 packs is required or a small order fee of \$20.00 applies.

Bulk Packs

- Bulk packs are shrink-wrapped in bundles of 250, with four bundles per case. Cases cannot be broke and have a minimum order of one case.

Shipping Info

- Customized labeling is charged at the rate of \$.35 a pack, bundle or case with a minimum charge of \$5.00. Laser labels will ship the next business day. All minimum order must ship to one address.

Returns

- Returns must have a Return Materials Authorization (RMA) # issued prior to shipping. Restock fee = 15% or \$30, whichever is greater.

The **solution** to
your **rack labeling**
challenges.

CleanBeam™

Refresh & Protect Your Racking

Whether your beams have seen a lot of use or are brand new, CleanBeam™ will keep them looking fresh for years to come. Just apply it right over any existing labels and damaged beams to cover them completely and protect against future wear. CIS will match CleanBeam™ to integrate seamlessly with your racking. Reap long term rewards from this one-time investment.

Effortless, Mess-Free Label Removal

Once CleanBeam™ is permanently installed on your racking, simply apply your location labels on top of it. Now, when you need to move stock or update a product, you can easily remove the location labels quickly and completely, without leaving any residue. CleanBeam™ will let you say goodbye to expensive magnets and the hassle of scraping old labels—saving you time & money!

CleanBin™ Complete Bin Protection

The same CleanBeam™ technology can be used for bins as well. Now you can match the color and size of your bins, and cover up old labels. Apply CleanBin™ to new bins to keep them looking new. Simply apply your barcode location labels on top of CleanBin™ for easier scanability. No more stacking labels or trying to remove old labels— making it easier to find and pick parts.

Integrated Guidelines

- All items have limited inventory and could be subject to 10-day production to fulfill back order or out of stock situations.
- All cases are bulked packed with 1500 sheets per carton.
- All orders must be full cartons only and are not available for pickup at Country Innovation & Supply warehouse.

Digital Labels

We **maintain** a fleet of **digital presses** including **HP Indigo, Colordyne** and **INX**.

Why Choose Digital?

Exceptional Print Quality: CIS utilizes a fleet of digital presses including HP Indigo 6900, Colordyne aqueous inkjet and INX UV inkjet to provide digitally printed labels. We can print short and medium press runs with up to 7 color process printing as well as Pantone matching options.

Unique Label Requirements: We can provide high-quality, digitally printed labels in thicknesses from 0.5 to 18 pt., up to 13.39" wide, in virtually any length and ANY shape. And CIS offers a wide variety of face stocks, adhesives, laminates and varnishes to suit all your needs.

Fast, Affordable Labels: Digital printing doesn't require production of plates. This means we can offer high-quality labels with impressively quick turnarounds and low pricing.

Perfect for Short and Medium Print Runs: CIS can provide the quantity of labels you need, when you need them. Whether you need labels for a limited promotion or need to continually change labels to keep up with changing regulations, CIS's got you covered with quantities as low as 100 labels.

Die Cut Options

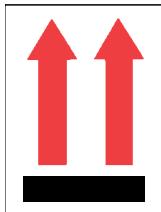

Have a unique label that in the past was too costly to produce? In-line precision laser die cutting allows CIS to produce labels of any shape, no matter how complicated, at the speed of light. This includes perforations. In addition to our laser die cutting capabilities, CIS is equipped with flexible semi-rotary magnetic dies and a vast collection of traditional dies. No matter what shape label your customer needs, we can help you provide an affordable die cutting option.

Specialty Stock & Colored Dot Guidelines

Label Info

- All labels are wound out and have no perforation between labels

Shipping

- We may bulk package orders (combine orders) to create less handling.
- If ordering more than \$1,000 in product for one shipment to one address, freight is FOB delivered. Orders received by 2 p.m. CT will ship same day.
- Orders received by 2 p.m. will ship same day. Orders received after 2 p.m. will ship the next business day. Dots are shipped from Texas only and specialty items are shipped from Illinois only.

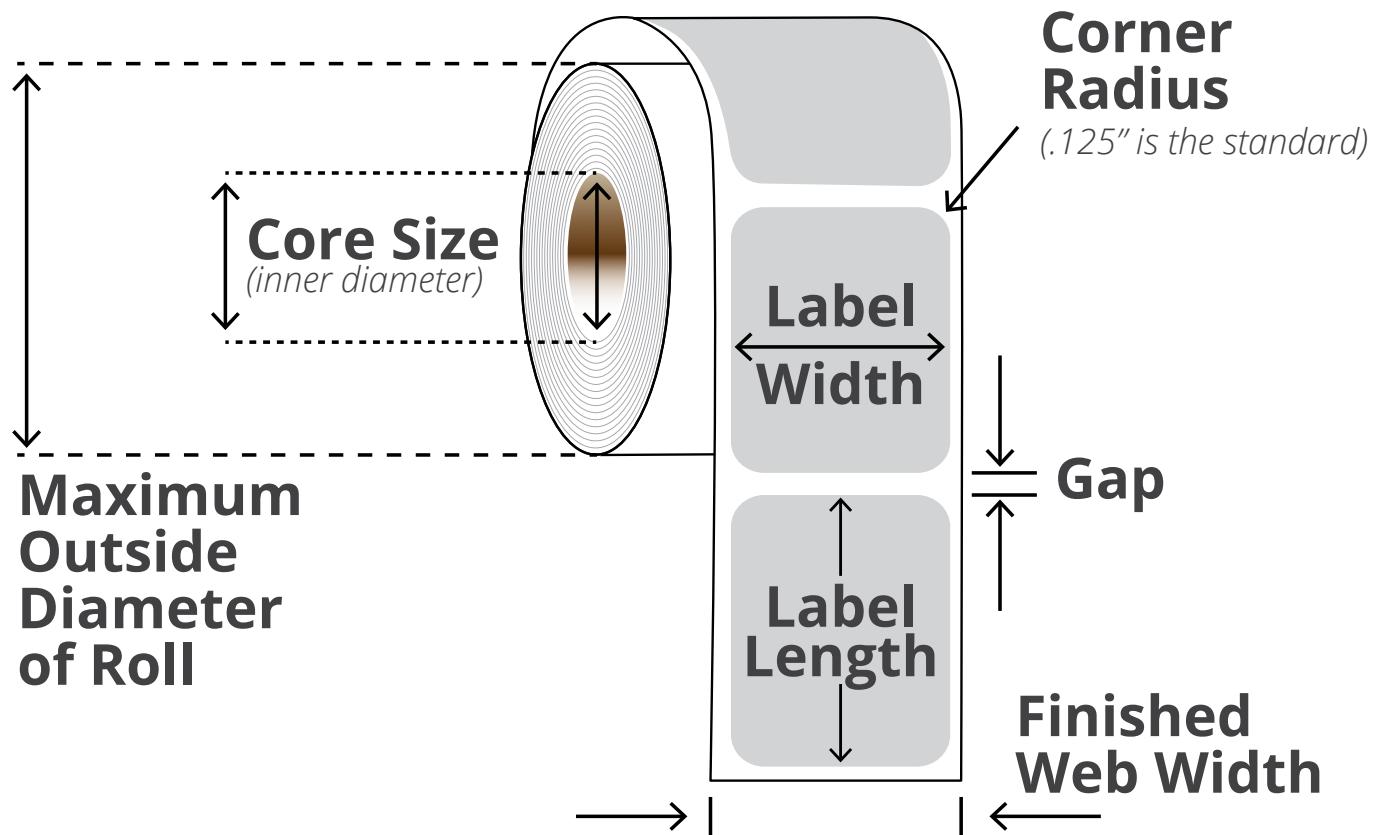

- A minimum of \$35.00 must be purchased to avoid a small order fee of \$20.00.

- Customized labeling of stock products will be charged at the rate of \$.35/box with a minimum charge of \$5.00.

Returns

- Returns must have a Return Materials Authorization (RMA) # issued prior to shipping. Restock fee = 15% or \$30, whichever is greater.
- Seller disclaims any implied or expressed warranties, including warranty of fitness and merchantability.
- In no event shall seller be liable for any claim for incidental or consequential damages arising out of or in the connection with the sale or use of any products described in this catalog and supplied by the seller.

Anatomy Of A Label

Important Label Considerations

Your label needs to not only look good, but stay where you want it and last as long as you need it to. These questions will help determine the best label material, type of adhesive and printing process so your label will perform.

What type of surface is the label going to be applied?

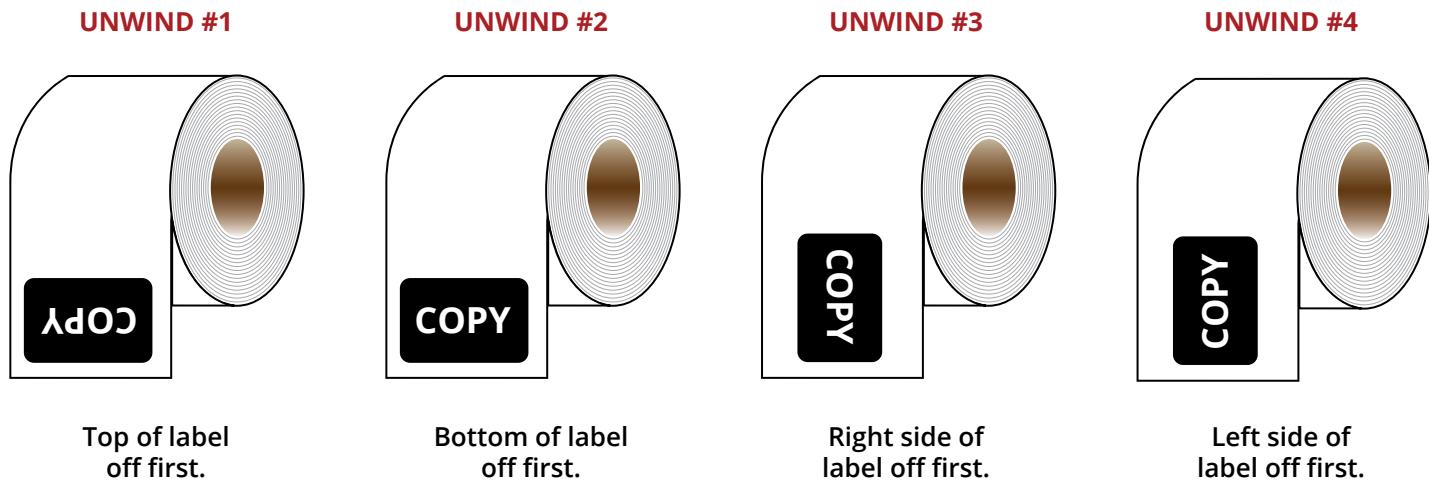

What material is the surface made of? Is it paper, metal, glass or some other material? Is the surface coated? Smooth or textured? And is the surface flat or curved? The shape and composition of the application surface help determine the best adhesive and label material.

What type of conditions does the label need to perform in?

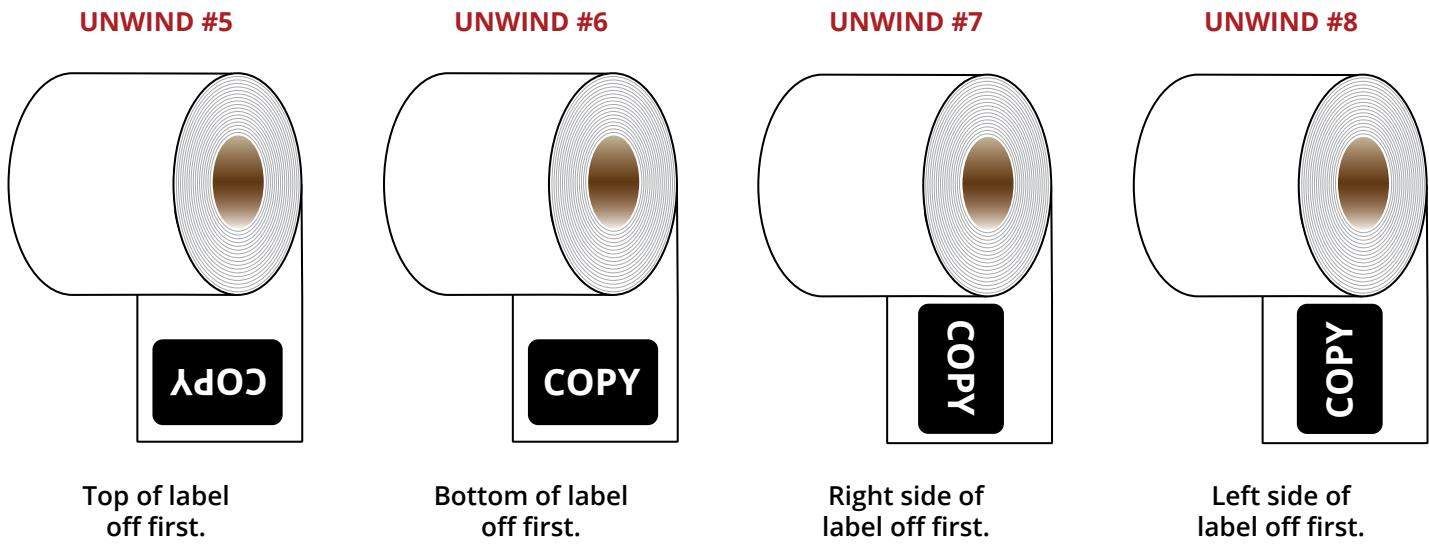

Will this label be exposed to extreme hot or cold? Moisture? Chemicals or cleaning agents? Sunlight or harsh weather? The environment that a label is applied in and used significantly affect its performance. It's important to choose the right material, adhesive and printing process to perform in these conditions.

Pressure Sensitive Label Construction

The Completed Pressure Sensitive Label

- 1 Topcoat or Print Receptive Coating (Optional)
- 2 Face Stock
- 3 Primer or Barrier Coating (Optional)
- 4 Adhesive
- 5 Release Coating
- 6 Release Liner

Email The Form: keaton@innovationandsupply.com

Client: _____
Part #: _____

Section 1. Label Application Information

Describe the Application: _____

What is the Label Applied to? _____

Desired Adhesive Performance: Permanent RemovableIf Removable, How Many Times? One Time Several

Application Temperature? _____ Service Temperature Range of the Application: _____

Application Method: Hand MachineIs the Label Used Outside? Yes No If Outside, How Long? _____Do the Labels Need to
be UL Approved? Yes No

Section 2. Printer Information

If Not Going Through a Printer Skip To Next Section

Client Variable Imaging Technology: Thermal Transfer Direct Transfer Laser Ink Jet Impact/ Dot Matrix

Printer Manufacturer (If Known)? _____ Printer Model # (If Known)? _____

Any Variable Imaging Done at Label Production Plant? Yes No

Section 3. Label Specifications

Label Material Description (Type of Paper or Film): _____

Label Shape: RCR Oval Circle Butt-Cut Continuous Roll Perfed Tag Notched Tag
 Special (Describe): _____Label Width: _____ # of Labels Across: _____ If > 1 Across, Vertical Perfs Between Labels? Yes NoLabel Depth: _____ If > 1 Across, Gap Between Labels? Yes No

Gap Space Between Labels: _____

Horizontal Perfs Between Labels? Yes No Pinfeeds? Yes NoFace Slits-Back Slits? Yes No If Yes, Describe: _____

Estimated Annual Usage: _____ Qtys to Estimate (List Up to 6): _____

Section 4. Printing

 Blank Floodcoat Plate Printed Digital # of Colors: _____ 4-Color Process? Yes NoOverlaminate Yes No If Yes, Describe: _____ or Varnish?Any Deadened Adhesive Areas or Printing on Adhesive? Yes NoAny Back Printing on Liner? Yes No # of Colors: _____

Section 5. Finishing

<input type="checkbox"/> Rolls	<input type="checkbox"/> Fanfold	<input type="checkbox"/> Sheeted
Core Diameter (Inner) _____	Fold Length _____	Sheets/Box _____
Max Outer Roll Diameter _____	Labels/Fold _____	Polywrapped? <input type="checkbox"/> Yes <input type="checkbox"/> No
Labels Per Roll _____	Folds/Stack _____	If Polywrapped, Sheets/Packs _____
Rolls Per Carton _____	Stacks/Box _____
